## HIGH STRENGTH MASKING TAPE (GP,HT)

Designed for precision work, ensuring flawless finishing in painting and surface treatments.

- ✳ Crepe paper base with strong adhesion, easy hand-tear
- ✳ Clean removal, no sticky residue
- ✳ Solvent, water & mild heat resistant
- ✳ Sharp paint edges, smooth finish
- ✳ Widely used in painting, automotive, furniture & construction
- ✳ Also for bundling, labeling, packaging & DIY
- ✳ Available in multiple widths & roll lengths

## D/S TISSUE TAPE

A versatile bonding solution for crafts, office, and light industrial applications

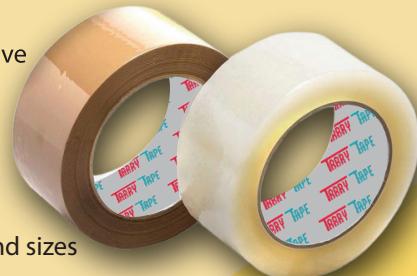

- ✳ Strong double-sided adhesion, lightweight & hand-tearable
- ✳ Easy bonding, perfect glue substitute
- ✳ Non-aging, reliable for long-term use
- ✳ Suitable for decoration, laminating, postal & packaging
- ✳ Ideal for office, household & craft applications
- ✳ Available in multiple sizes, grades & different micron's (60,80,100)

## BOPP TAPE

Strong, moisture-resistant packaging tape ensuring secure sealing for cartons and shipments.

- ✳ Biaxially Oriented Polypropylene film with strong adhesive
- ✳ Excellent tack & shear strength, long-lasting bond
- ✳ High tensile strength & superior clarity
- ✳ Moisture, chemical & abrasion resistant
- ✳ Smooth release, easy to apply on all surfaces
- ✳ Widely used for carton sealing, packaging & shipping
- ✳ Available in clear, brown, printed & customized shape and sizes
- ✳ Various colors & grades available

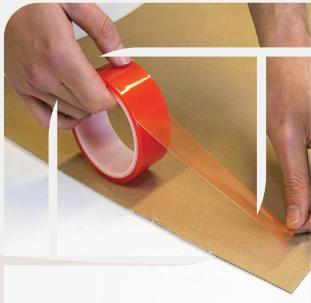

## CORK TAPE

Flexible adhesive tape providing cushioning, sealing, and vibration dampening for various surfaces.

- ✳ Flexible, self-adhesive insulation tape
- ✳ Strong bond with durable cushioning effect
- ✳ Excellent resistance to moisture, oil & temperature variations
- ✳ Non-hardening, non-staining & easy to apply
- ✳ Provides vibration dampening & airtight sealing
- ✳ Widely used in refrigeration, air-conditioning & HVAC applications
- ✳ Available in rolls & strips for multipurpose use & the temperature range between -30°F to 200°F

## D/S POLYESTER TAPE

Reliable adhesive film trusted in high-performance splicing lamination, LED & signage.

- ✳ High-strength polyester film with double-sided adhesive
- ✳ Excellent shear, tack & long-term bonding performance
- ✳ Resistant to heat, chemicals, moisture & aging
- ✳ Thin, transparent & durable for precision applications
- ✳ Ideal for electronics, splicing, lamination & mounting
- ✳ Available in various Sizes, widths, length & micron's.

## FLEECE TAPE

A protective wrap that combines durability with noise-dampening properties.

- ✳ Soft fabric-based tape with strong adhesive backing
- ✳ Provides abrasion resistance & noise reduction
- ✳ Flexible, tear-resistant & easy to apply
- ✳ Heat & aging resistant, ensures long-lasting performance
- ✳ Ideal for cable harnessing, automotive interiors & electrical insulation
- ✳ Available in multiple widths, colors & roll sizes

## SPACER TAPE

Engineered for controlled spacing and sealing in demanding assembly jobs.

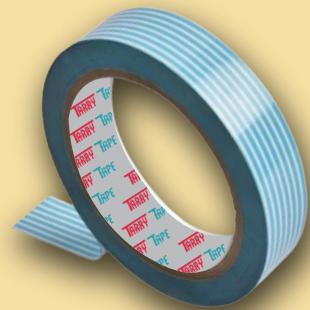

- ✳ High-density foam tape with pressure-sensitive adhesive
- ✳ Provides uniform spacing & cushioning during assembly
- ✳ Excellent resistance to weather, UV, moisture & temperature
- ✳ Ensures clean, strong & reliable bonding
- ✳ Widely used in glass glazing, curtain wall & construction applications
- ✳ Available in different thicknesses, widths & roll lengths

## COMPONENT HOLDING TAPE

Tailor-made for secure positioning during electronic manufacturing processes.

- ✳ Strong adhesion with residue-free clean removal
- ✳ Heat, chemical & aging resistant
- ✳ Provides secure temporary holding during PCB assembly & wave soldering
- ✳ Prevents shifting of electronic components in manufacturing
- ✳ Easy to apply, flexible & durable film backing
- ✳ Widely used in electronics, semiconductor & precision industries
- ✳ Available in various sizes, grades & the temperature range varies between 300°C to 400°C.

## AUTO BODY PROTECTION TAPE

Temporary shield that keeps vehicle paint flawless during transit.

- ✿ High-quality PE / PVC film with strong adhesive backing
- ✿ Scratch, dust & stain resistant for vehicle surfaces
- ✿ Weather, UV & moisture resistant for outdoor durability
- ✿ Clean removal without leaving adhesive residue
- ✿ Protects paint, bumpers & trims during transit, service or repair
- ✿ Widely used in automotive manufacturing, anodizing, export, detailing & workshops
- ✿ Available in different colors, sizes & grades for varied applications

## DI-CUTS (Single/Double Sided)

Pre-shaped adhesive solutions for precise industrial applications.

- ✿ Precision die-cut shapes with single or double adhesive options
- ✿ Strong bonding, easy application & residue-free removal
- ✿ Available in foam, tissue, polyester & acrylic base materials
- ✿ Heat, moisture & aging resistant for durable performance
- ✿ Ideal for electronics, automotive, signage & industrial assemblies
- ✿ Customized shapes & sizes available as per design needs
- ✿ Offered in multiple grades to match diverse applications

## HDPE SEAL TAPE (Single/ Double Sided)

A rugged sealing tape designed for outdoor and industrial use.

- ✿ High-density polyethylene film with strong adhesive
- ✿ Tear-resistant, stretchable & durable sealing performance
- ✿ Moisture, chemical & weather resistant
- ✿ Provides reliable jointing & leak-proof sealing
- ✿ Ideal for agriculture, construction, packaging & industrial use
- ✿ Lightweight, easy to handle & quick to apply
- ✿ Available in different widths, thicknesses & grades to suit applications

## DIMPLE TAPE

Smart drainage layer protecting foundations from moisture intrusion.

- ✿ High-strength HDPE membrane with dimpled structure
- ✿ Provides excellent drainage & moisture protection
- ✿ Tough, tear-resistant & chemical resistant
- ✿ Creates air gap for ventilation & prevents water seepage
- ✿ Ideal for foundation walls, retaining walls & underground structures
- ✿ Extensively used in construction, waterproofing & landscaping projects
- ✿ Offered in various sizes & grades as per site requirements

## WIRING HARDNESS TAPE

Essential wrap for organized, long-lasting wire harnessing.

- ★ Strong adhesive tape designed for cable & wire bundling
- ★ Abrasion, heat & vibration resistant for long-lasting protection
- ★ Flexible, easy to wrap & tear resistant
- ★ Reduces noise, prevents wear & ensures neat finishing
- ★ Widely used in automotive, electrical & industrial wiring harnesses
- ★ Provides safe, reliable & durable wire management
- ★ Available in fabric, PVC, fleece & other grades to match application needs

## CONSPICUITY REFLECTIVE TAPE

A safety enhancer that keeps vehicles visible at night.

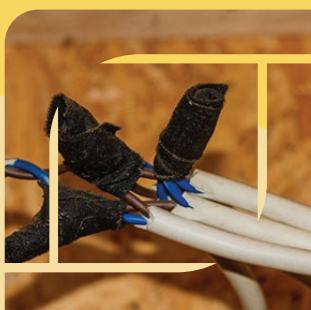

- ★ High-visibility reflective tape with strong adhesive backing
- ★ Ensures excellent reflectivity in low light & night conditions
- ★ Weather, UV & water resistant for outdoor durability
- ★ Easy to apply on flat or curved surfaces
- ★ Enhances road safety by improving vehicle & object visibility
- Widely used on trucks, trailers, sign boards & safety equipment
- Available in multiple colors, sizes & grades as per Govt. safety standards

## REAR MARKING PLATE

Road safety plate that ensures instant recognition of heavy vehicles.

- ★ High-intensity reflective plate with durable construction
- ★ Provides superior visibility during day & night
- ★ Weather, UV & corrosion resistant for long service life
- ★ Strong adhesion & easy installation on vehicle surfaces
- ★ Enhances road safety by alerting other drivers from a distance
- Extensively used on trucks, trailers, heavy vehicles & commercial transport
- Offered in standard sizes, reflective grades & color combinations as per Govt. safety regulations

## PET CLOTH TAPE

Strong polyester-backed tape suitable for industrial bundling and protection.

- ★ Polyester cloth backing with strong adhesive strength
- ★ Excellent abrasion, moisture & heat resistance
- ★ High tensile strength with easy tear & flexibility
- ★ Provides secure bundling, wrapping & reinforcement
- ★ Ideal for cable harnessing, electrical insulation & heavy-duty packaging
- ★ Widely used in automotive, electronics & industrial applications
- ★ Available in different colors, widths & grades for varied requirements

## AIR VENT TAPE

Specially crafted for airflow management in automotive and appliance systems.

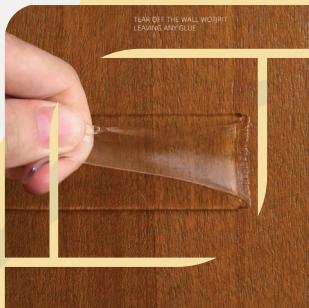

- ✿ High-quality self-adhesive aluminum / non-woven base
- ✿ Allows controlled air passage while preventing dust & moisture entry
- ✿ Strong bonding, heat & weather resistant
- ✿ Provides durable sealing with flexibility
- ✿ Widely used in automotive, appliances & HVAC venting applications
- ✿ Available in multiple widths & customized rolls

## WATERPROOF BUTYL TAPE

A permanent sealing companion for challenging weatherproofing tasks.

- ✿ Self-adhesive butyl rubber base with strong waterproof sealing
- ✿ Excellent resistance to UV, weather, moisture & aging
- ✿ Flexible, durable & long-lasting bond on multiple surfaces
- ✿ Provides airtight & watertight sealing without cracking
- ✿ Ideal for roofing, windows, doors, pipes & automotive repairs
- ✿ Available in different widths, thicknesses & roll lengths

## VHB ACRYLIC TAPE (TRANSPARENT, GREY)

Blends strength with clarity for a seamless bonding finish.

- ✿ Crystal-clear, strong acrylic adhesive tape
- ✿ Excellent tack, shear & long-term bonding strength
- ✿ UV, weather & temperature resistant
- ✿ Provides neat & invisible finish after application
- ✿ Ideal for splicing, mounting, sealing & general packaging
- ✿ Widely used in printing, electronics & household applications
- ✿ Available in various sizes

## BLUE JOINT TAPE

Professional-grade jointing solution for smooth drywall finishing.

- ✿ High-strength fiberglass mesh with adhesive backing
- ✿ Tear-resistant, flexible & easy to apply
- ✿ Provides smooth finishing for drywall joints & plasterboard seams
- ✿ Prevents cracks, gaps & air leakage
- ✿ Strong bonding with long-lasting durability
- ✿ Widely used in construction, interior finishing & wall repair

## ACETATE CLOTH TAPE

Classic insulation tape valued for flexibility and long service life

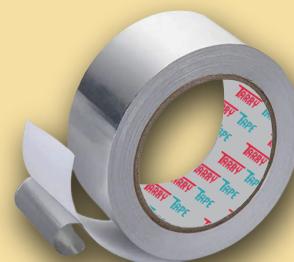

- ★ Premium-grade acetate cloth backing with strong adhesive
- ★ Excellent flexibility, conformability & easy tear
- ★ Heat, abrasion & moisture resistant
- ★ Provides electrical insulation with durable performance
- ★ Ideal for coil wrapping, harnessing & cable binding
- ★ Widely used in electrical, electronics & automotive industries
- ★ Offered in customized sizes as per application need

## FSK FOIL TAPE

Trusted choice for insulation integrity in HVAC and ducting works.

- ★ Foil-Scrim-Kraft laminate backing with strong adhesive
- ★ High tensile strength & excellent sealing performance
- ★ Resistant to moisture, chemicals & temperature variations
- ★ Provides durable insulation covering & vapor barrier
- ★ Ideal for HVAC ducting, insulation joints & pipe wrapping
- ★ Ensures long-lasting protection with neat finishing in industrial applications

## SECURITY TAPE

Smart packaging solution that instantly reveals tampering

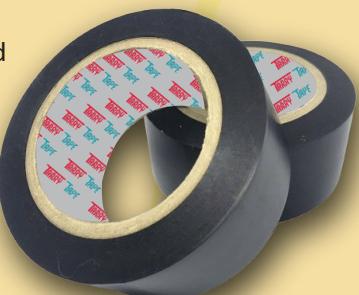

- ★ Tamper-evident tape with strong self-adhesive backing
- ★ Leaves clear "OPENED/VOID" message on removal
- ★ High tack, residue-free & easy application
- ★ Resistant to heat, moisture & aging
- ★ Ensures product authentication & protection against pilferage
- ★ Extensively used in packaging, logistics & e-commerce for secure shipments & also available in Custom Sizes

## PROT PVC TAPE

Prot PVC tape is a RoHS compliance. It is strongly laminated with double-sided tissue tape on the edges.

- ★ Premium-grade PVC backing with strong adhesive strength
- ★ Flexible, stretchable & easy to apply on curved surfaces
- ★ Excellent resistance to moisture, abrasion & chemicals
- ★ Provides reliable insulation & long-lasting protection
- ★ Ideal for electrical wiring, cable harnessing & color coding
- ★ Preferred in electrical, construction & industrial maintenance works

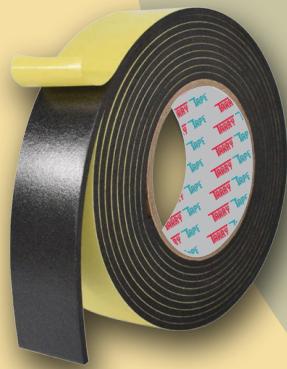

## EVA FOAM TAPE

A versatile foam adhesive for sealing, cushioning, and mounting.

- ✿ High-quality EVA foam with double-sided adhesive
- ✿ Excellent cushioning, shock absorption & sealing properties
- ✿ Resistant to moisture, dust, UV & temperature variations
- ✿ Provides strong bonding on uneven & rough surfaces
- ✿ Ideal for automotive trims, nameplates, glass, metal & electronics
- ✿ Extensively used in construction, packaging & household applications
- ✿ Offered in various thicknesses, widths & adhesive grades to suit applications

## D/S PU FOAM TAPE

Lightweight foam tape offering comfort in sealing and noise control.

- ✿ Polyurethane foam base with pressure-sensitive adhesive
- ✿ Lightweight, flexible & excellent cushioning performance
- ✿ Provides strong sealing against dust, moisture & air leakage
- ✿ Heat, aging & weather resistant for long-term use
- ✿ Ideal for electronics, automotive, HVAC & construction applications
- ✿ Ensures noise reduction, vibration dampening & gap filling
- ✿ Available in different densities, thicknesses & adhesive strengths as per requirement

## D/S PE FOAM TAPE

Multipurpose foam tape that adapts well to uneven surfaces.

- ✿ Polyethylene foam with strong double-sided adhesive
- ✿ Excellent shock absorption, cushioning & sealing performance
- ✿ Resistant to water, dust, UV & temperature changes
- ✿ Strong bonding even on rough, uneven & textured surfaces
- ✿ Ideal for mounting, gasketing, insulation & automotive applications
- ✿ Widely used in construction, signage, electronics & household use
- ✿ Offered in various thicknesses, colors & adhesive grades for versatile applications

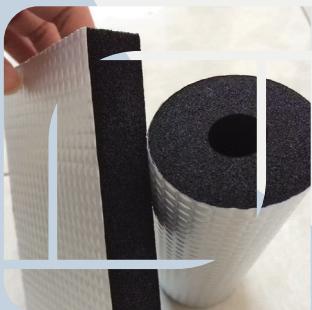

## NBR FOAM TAPE

Oil-resistant sealing tape built for industrial and HVAC environments.

- ✿ Nitrile Butadiene Rubber (NBR) foam with strong adhesive
- ✿ Excellent resistance to oil, fuel, solvents & weathering
- ✿ Provides superior cushioning, sealing & thermal insulation
- ✿ Flexible, durable & easy to apply on curved or uneven surfaces
- ✿ Ensures noise reduction, vibration dampening & leak-proof sealing
- ✿ Widely used in HVAC, automotive, refrigeration & industrial equipment
- ✿ Available in different densities, thicknesses & adhesive grades to match applications

## XLPE FOAM TAPE

Cross-linked foam adhesive known for thermal and structural resilience.

- ✿ Cross-linked polyethylene foam with strong adhesive backing
- ✿ Lightweight, flexible & high tensile strength
- ✿ Excellent thermal insulation, cushioning & shock absorption
- ✿ Resistant to moisture, UV, chemicals & temperature variations
- ✿ Provides reliable sealing, vibration dampening & gap filling
- ✿ Widely used in HVAC, automotive, construction & electronic appliances
- ✿ Offered in multiple thicknesses, densities & adhesive grades for customized solutions

## ALUMINIUM GLASS TAPE

A lightweight thermal shield for insulation and sealing needs.

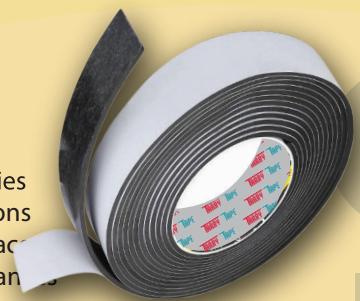

- ✿ Aluminum foil laminated with fiberglass for extra strength
- ✿ Excellent heat reflection & insulation properties
- ✿ High resistance to flame, moisture, UV & chemicals
- ✿ Provides strong sealing & durable bonding in harsh conditions
- ✿ Ideal for HVAC ducting, pipe wrapping & high-temperature insulation
- ✿ Widely used in construction, thermal insulation & industrial maintenance
- ✿ Offered in various thicknesses, roll sizes to suit applications

## EPDM FOAM TAPE (Double / Single sided)

A practical tape for sealing gaps and dampening vibrations.

- ✿ Foam backing with strong single-side adhesive coating
- ✿ Provides excellent cushioning, sealing & gap-filling properties
- ✿ Resistant to moisture, dust, vibration & temperature variations
- ✿ Flexible, durable & easy to apply on smooth or uneven surfaces
- ✿ Ideal for HVAC, construction, automotive & electronic appliances
- ✿ Used for insulation, gasketing, weather stripping & noise reduction
- ✿ Offered in different foam types, thicknesses & adhesive grades for specific applications

## AQUA SOFT & GLOW LINE ANTI-SKID TAPE

Safety grip tape that glows for extra visibility.

- ✿ Anti-slip surface with strong adhesive for safe footing
- ✿ Soft texture for barefoot comfort & enhanced grip
- ✿ Glow-in-the-dark line ensures visibility in low light & darkness
- ✿ Water, chemical & weather resistant for long-lasting performance
- ✿ Ideal for bathrooms, swimming pools, staircases & wet areas
- ✿ Extensively used in residential, commercial & safety applications
- ✿ Available in various sizes, colors & glow patterns for customized safety solutions

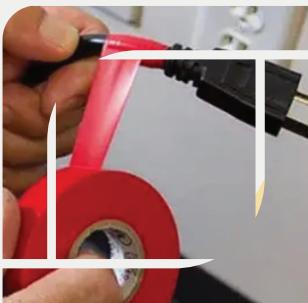

## PAPER CRAFT TAPE (RGPT, SKPT)

Lightweight eco tape that inspires creativity in design and décor.

- ✿ Eco-friendly paper base with reliable adhesive
- ✿ Easy to tear by hand, smooth application
- ✿ Writable surface for labeling & decoration
- ✿ Strong bonding yet clean removal without residue
- ✿ Perfect for arts, crafts, DIY projects & gift wrapping
- ✿ Popular choice for creative, packaging, decorative & school applications

## INSULATION/ELECTRIC TAPE

Standard electrical protection tape for safe and secure wiring.

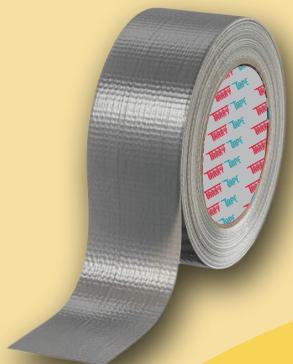

- ✿ High-quality PVC base with strong adhesive
- ✿ Excellent electrical insulation & dielectric strength
- ✿ Resistant to heat, moisture, abrasion & corrosion
- ✿ Flexible, stretchable & easy to apply on wires & cables
- ✿ Ensures safety in electrical joints & splices
- ✿ Widely used in electrical, automotive & industrial wiring applications

## DUCT / GAFFER TAPE

Standard electrical protection tape for safe and secure wiring made up of cloth or scrim material.

- ✿ Ideal for insulation, underground pipeline, corrosion, HVAC, sealing & abrasion protection.
- ✿ High tensile strength, flexible & hand-tearable
- ✿ Excellent resistance to moisture, abrasion & rough handling
- ✿ Strong bonding on uneven, rough & curved surfaces
- ✿ It is designed for industrial or pipe wrapping
- ✿ Colors available: ● ● ●

## BINDING TAPE

Durable adhesive strip for neat and secure bundling.

- ✿ Strong fabric / polyester base with high adhesive strength
- ✿ Excellent tensile strength & durable binding performance
- ✿ Resistant to abrasion, moisture & regular wear
- ✿ Provides firm grip without loosening over time
- ✿ Ideal for cable bundling, book binding & packaging applications
- ✿ Commonly used in electrical, industrial & stationery sectors

## CROSS FILAMENT TAPE

Reinforced tape that tackles heavy loads with ease.

- ✿ Reinforced with fiberglass filaments in cross pattern
- ✿ High tensile strength & superior load-bearing capacity
- ✿ Strong adhesive with excellent holding power
- ✿ Resistant to abrasion, moisture & temperature variations
- ✿ Ideal for heavy-duty packaging, bundling & palletizing
- ✿ Widely used in logistics, electronics, automotive & industrial applications
- ✿ Available in different grades, widths & filament strengths for varied needs

## FLOOR GUARD SHEET

Heavy-duty floor covering that safeguards surfaces during work.

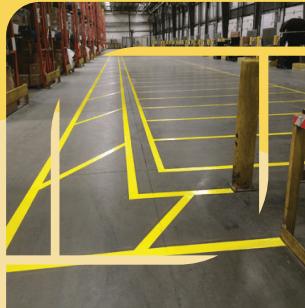

- ✿ Heavy-duty protective sheet with strong tear resistance
- ✿ Waterproof, chemical & abrasion resistant surface
- ✿ Cushions floor against scratches, dust, paint & damage
- ✿ Easy to lay, remove & reusable for multiple applications
- ✿ Ideal for construction sites, renovation, painting & shifting work
- ✿ Preferred choice for reliable floor protection in residential & commercial projects

## ALUMINUM PET TAPE

A shielding tape offering EMI/RFI protection and insulation.

- ✿ Laminated aluminum foil with PET film backing
- ✿ Strong adhesion & excellent heat reflection properties
- ✿ Resistant to moisture, UV, chemicals & aging
- ✿ Provides durable insulation & protective sealing
- ✿ Ideal for HVAC ducting, cable shielding & EMI/RFI protection
- ✿ Extensively used in electronics, electrical & industrial applications
- ✿ Offered in various thicknesses, roll widths & adhesive grades to suit requirements

## FLOOR MARKING TAPE

Bright adhesive markers that improve workplace safety and organization.

- ✿ PVC / vinyl base with strong pressure-sensitive adhesive
- ✿ Durable, abrasion & moisture resistant surface
- ✿ Provides clear marking with sharp color visibility
- ✿ Easy to apply & remove without surface damage
- ✿ Ideal for safety marking, lane identification & zoning areas
- ✿ Widely used in warehouses, factories, parking & public places
- ✿ Available in various colors, sizes & grades for different safety standards

### GLASS CLOTH TAPE

A shielding tape offering EMI/RFI protection and insulation.

- ✿ Laminated aluminum foil with PET film backing
- ✿ Strong adhesion & excellent heat reflection properties
- ✿ Resistant to moisture, UV, chemicals & aging
- ✿ Provides durable insulation & protective sealing
- ✿ Ideal for HVAC ducting, cable shielding & EMI/RFI protection
- ✿ Extensively used in electronics, electrical & industrial applications
- ✿ Offered in various thicknesses, roll widths & adhesive grades to suit requirements

### POLYIMIDE TAPE

Polyimide Tape offers excellent electrical insulation; high temperature resistance; and high voltage resistance.

- ✿ Highly conformable with a pressure-sensitive, acrylic adhesive
- ✿ Flame-retardant and has polyimide backing
- ✿ Suitable for use as wave solder masking tape in a printed circuit board assembly
